

## Dendreon Phase 2 and Phase 3 Expansion Morris Plains, New Jersey

**CLIENT/OWNER:**

Dendreon Corporation

**SCOPE OF WORK:**

Process Piping/Plumbing/HVAC

**BUILDING TYPE:**

Manufacturing Plant

**PROJECT VALUE:**

\$4,200,000

**CONTRACT WITH:**

The Henderson Corporation

Dendreon is a biotechnology company focused on targeting cancer and improving treatment options for patients. Armistead contracted with The Henderson Corporation to complete Phase Two and Phase Three expansion phases of their Morris Plains, NJ manufacturing facility on a fast-track schedule.

Process piping included polypropylene and stainless steel.

The project included rigging for eight indoor air handler units, three rooftop units and three rooftop chillers. All rooftop units required a 600-ton crane.

Chilled water and hot water was Victaulic, up to 12".
