

## Roche Molecular Systems K-6 Upgrade / High Bay Renovation Branchburg, New Jersey

**CLIENT/OWNER:**  
Roche Molecular Systems

**SCOPE OF WORK:**  
Plumbing/HVAC

**BUILDING TYPE:**  
Manufacturing Plant

**PROJECT VALUE:**  
\$6,400,000

**CONTRACT WITH:**  
Torcon

Armistead Mechanical contracted with Torcon for this project. The scope of work included all HVAC and Plumbing. The K-6 upgrade included the removal of existing refrigeration units from the plant and replacing them with chilled water units, including tying into another existing chilled water system.

Lab renovations included HEPA filtration and clean air drops. Work was completed on a fast-track schedule in March 2008. Torcon was the

Construction Manager for this work at Roche's Branchburg, NJ facility,
